Brackets   **Orders**   **Division**   **Multiplication**   **Addition**   **Subtraction**

1st

Start with anything inside brackets.

2nd

Are there any powers or square roots?

3rd

Division and multiplication rank equally.

Working from left to right, calculate them in the order they appear.

4th

Addition and subtraction also rank equally.

Again, start from the left and work your way across the equation.
